

November 10, 2025 at 6:30 a.m.: On Continuing Intrusions

I am continuing to document that we are still experiencing an ongoing intrusion into our home by the spying arms of Donald Trump and Elon Musk.

I have done my best to alert everyone that I can: Donald Trump and Elon Musk have the ability to watch people inside of their homes and extend a team of vehicles to 'drive' constant acoustic noises into their houses.

We are experiencing that the President of the United States of America has taken up residence inside of our house and, using the technological arm of the USA surveillance state, is attempting to drive a message of constant harm into our life.

I will continue to keep this documentation going for as long as I choose.

As a recap, I used to be one of Donald Trump's most loyal supporters. I joined the Republican Party at his request. I came to the aid of my country when it called upon me to do so.

Upon arriving at that place in time, it was made known to us that we were being spied upon. There was nothing that we could do about it - but, I figured, hey - the President is investigating to make sure that people that he brings close to him are not criminals. 'We have nothing to hide' is the common understanding at this point.

After living with his spying presence in our life for about one year, their spying presence began to appear in our life as a real team of people. Their team began in the image and form of a team of people that are 'watching over' your life and quickly turned into 'boot-kicking' and causing harm to our property.

Afterward, we began to see weapons displayed, and a man with a gun did confront me in my front yard.

We have come to understand that **Donald Trump is a criminal that belongs in prison.**

We have come to understand that **he is running the United States government as his own personal army.**

We have come to understand that **the United States Military not only willingly accepts this role, but likely created it for themselves as an extension of Nazi-Germany into the USA.**

I have done my best to alert the world of the historical and present implications of everything that I have been witnessing since 'getting involved' in 'politics' in 2021.

ALERT: UNITED STATES MILITARY IS INDICATING TO ME THAT IT HAS EMBRACED NAZI BELIEFS AND IDEOLOGY. I AM ALERTING EVERYONE: THE USA GOVERNMENT SURVEILLANCE STATE CANNOT BE VIEWED AS A 'LAW-ABIDING' POWER.

(We can continue this all day long. For every single intrusion that they make in my life, I can document it. For every documentation, they make another intrusion. This has been the ongoing pattern. **The United States government has become an evil empire that is attempting to entrap me into anything that it can use to demonize me as a criminal while exemplifying to me that it adheres to no laws, no morals, or any form of restraint.** The message to me - in my home - is that they have unlimited resources and are using those resources to destroy America)
